

# Enhance Your BalanceTutor Experience with MediTouch's New Telescopic Handrails

Introducing MediTouch's latest innovation: the Telescopic Handrail designed specifically for use with BalanceTutor. Elevate your balance rehabilitation sessions with unparalleled convenience and versatility.

**Adjustable Handle Length:** The telescopic design allows for effortless adjustment of the handle's length, ensuring a customized and comfortable grip for every user.

**Height Axis Feature:** Equipped with an innovative height axis feature, our handrail accommodates users of all ages and sizes, making it suitable for both children and adults.

**Pivot Function:** Seamlessly fold the handrail with our pivot function, enabling unsupported practice sessions and expanding the range of exercises you can perform with BalanceTutor.

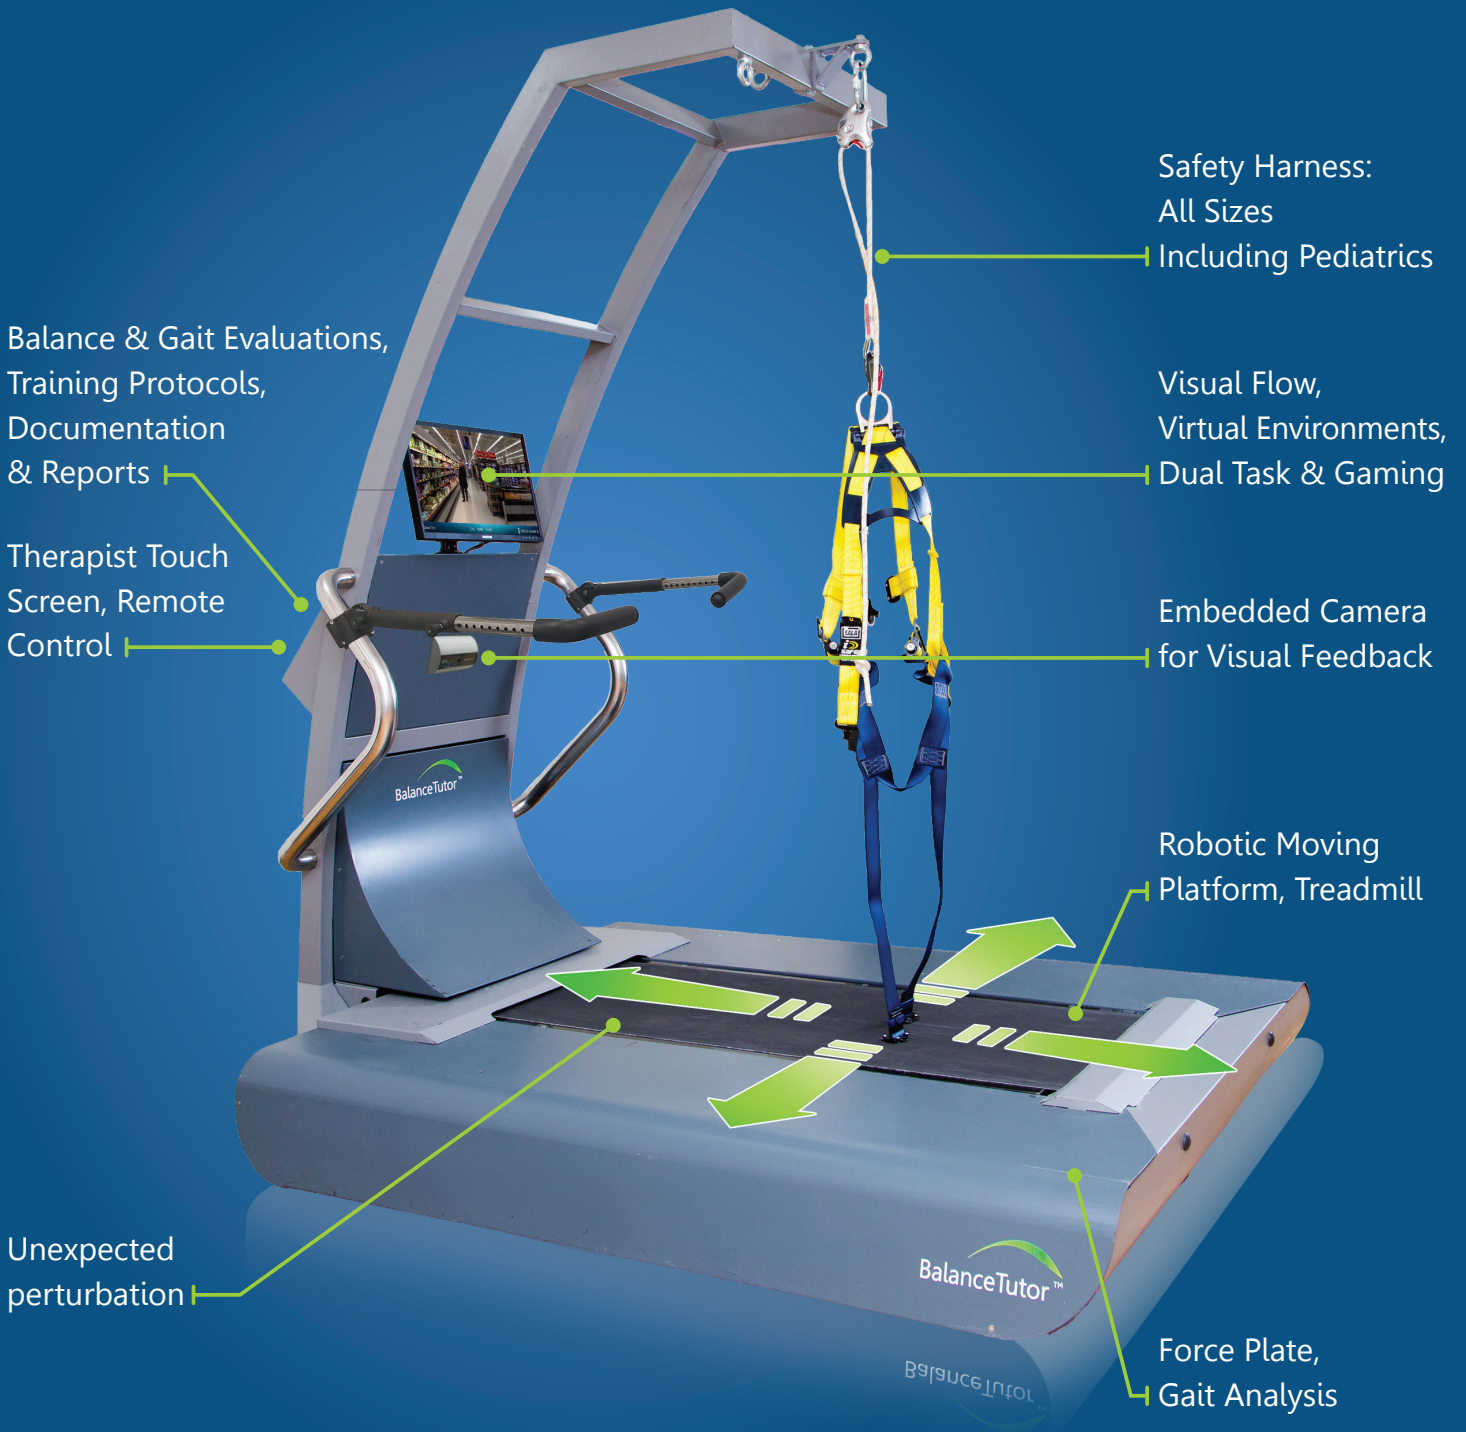

Upgrade your **BalanceTutor** experience today with MediTouch's Telescopic Handrails
