PhysioStep HXT
 Recumbent Semi-Elliptical Cross Trainer

The **PhysioStep HXT** recumbent cross trainer provides an easy & effective total body cardio workout. The **PhysioStep HXT** recumbent cross trainer is our most compact and affordable unit and has a semi-elliptical motion with minimum extension. It features a step through design and a low entry seat. Users will enjoy the unique rotating hand grips and quick release lever that allows for hand positioning at any angle. The **PhysioStep HXT** recumbent cross trainer has a shorter arm movement that will not strain your shoulders while still engaging the upper body.
