

SENAPTEC STROBE

SENSORY TRAINING EYEWEAR

TRAIN THE CONNECTIONS BETWEEN AN INDIVIDUAL'S EYES, BRAIN, AND BODY.

THE LENSES FLICKER BETWEEN CLEAR AND OPAQUE, LIMITING VISUAL INFORMATION AND TRAINING THE INDIVIDUAL TO PROCESS THE WORLD MORE EFFICIENTLY.

MOBILE APP CONTROL

Control your Senaptec Strobe with your phone by Bluetooth pairing!

Configure your own custom modes!

ADOPTED BY ELITE ATHLETES

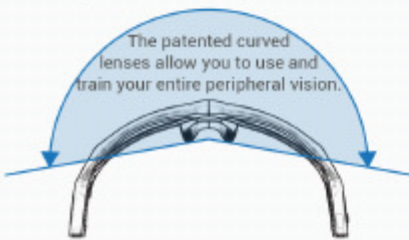

Teams and athletes in the NFL, NBA, MLB, NHL, NCAA, and Olympics are using Senaptec Strobe to improve their skill.

INTEGRATE WITH EXISTING DRILLS

The Senaptec Strobe can be integrated with many existing ball drills, balance exercises, or agility drills. Train your senses and your body together!

FULL FIELD OF VIEW

The patented curved lenses allow you to use and train your entire peripheral vision.

ADJUSTABLE MODES AND DIFFICULTY

One or both lenses can be strobing and the strobe rate can be adjusted to provide the specificity of training for your exact needs.

BACKED BY SCIENCE

Studies demonstrate training with Senaptec Strobe improves athlete's visual skills and performance in sport. Visit our website for more information.
