COMMERCIAL TREADMILLS: TR7000i, TR8000i

Simple to use and proven effective.

At LifeSpan we have the products that you need to support an active and healthy lifestyle anytime and anywhere. Whether you prefer to exercise at home, at work, at commercial facilities like Medical Fitness Centers, Corporate Fitness Centers, Schools, Hotels or outdoors, LifeSpan has the products to help you stay active and fit.

Recent research shows that even if we meet the minimum daily recommended amount of exercise, we are still at risk of many chronic conditions due to our sedentary lifestyles. For optimum health and wellness, physical activity needs to be incorporated into all aspects of our lives.

LifeSpan equipment and accessories are integrated with the LifeSpan Fitness Club, a health and fitness management solution. This online solution tracks and summarizes all of your activity in one simple account. You can save your exercise results on a USB Flash drive, use our activity monitor with flip USB jack, manually log results, or use one of our Bluetooth apps to automatically log and track your exercise results from Bluetooth enabled LifeSpan fitness equipment.

*Indoors, outdoors, at home, at work or in the gym, LifeSpan has the products that support an active and healthy lifestyle.*

COMMERCIAL

RESIDENTIAL

WORKPLACE

Our integrated solution lets you manage your health and fitness from the convenience of a personal computer or tablet. Not just a web site to log exercise, the LifeSpan Fitness Club is a medically based program that's designed by fitness professionals and follows American College of Sports Medicine protocols to ensure that proven techniques are followed. Some of the features include:

### **SOCIAL SUPPORT**

Join a team or set up your own team as a team captain. Track your progress and the progress of your team members. Communicate directly with your team to challenge or help keep them motivated.

### **RESULTS AND REPORTS**

Graphically track your results for Health Metrics, Exercise and progress against a Goal. Your results can be logged manually, with USB upload, or using one of our apps.

### **WORKOUT PROGRAMS**

Select Workout Calendars that match your profile and exercise preferences. Download your program to one of our apps and your daily workout will be automatically selected by our Bluetooth enabled equipment.

### **ASSESSMENTS**

Identify your Barriers to Exercise and how to overcome those barriers, graphically view your Heart Rate Training Zones, and understand your Metabolic Rate and the impact of activity levels.

### **REAL COACHES**

Our certified trainers and coaches are available to provide motivation and answer your questions one on one.
